Uzaydan, Mars'a kum fırtınalarına,
gizemli kart!

Every year, hundreds of teachers, thousands of children and young people explore space with Stellar Lab.

Let's Explore Stellar Lab

● Digital Astronomy Library

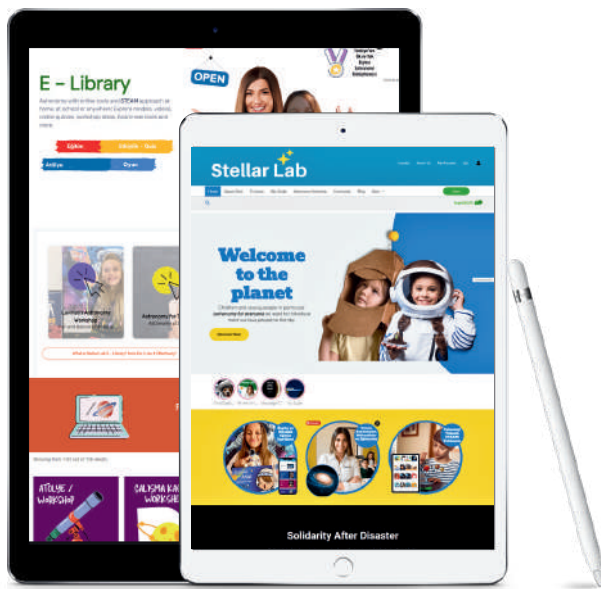

Printable educational content, worksheets, educational videos, online courses, fun quizzes and more.

● DIY Kits & Activity Boxes

Fun and educational boxes are packed with astronomy – interdisciplinary, technology-based, and original!

● Activities and Projects

Skywatching events, astronomy camps, workshops, and regional and international programs.

Stellar Lab

EXPLORE THE UNIVERSE

Mission

Stellar Lab's mission is to increase the interest of society and individuals in astronomy. At the same time, Stellar Lab wants to raise public awareness by highlighting global issues through astronomy. We focus on equal opportunities in education by supporting women and girls in science and use astronomy to create greater awareness of climate-related issues.
